

PRE-SEDIMENT FILTER SPEC SHEET

WHOLE-HOME PRE-FILTRATION

Pre-Sediment Filter

Big Blue housing · 5 micron · point of entry

AT A GLANCE

System	Sediment pre-filter
Housing	Big Blue 20"
Rating	5 micron
Flow	15 GPM
Changes	Every 6 months

A whole-home sediment pre-filter installed ahead of your main system. The standard Big Blue housing holds a 5 micron cartridge that catches sand, silt, rust and dirt before they reach your softener, carbon tank, fixtures and appliances. Protects the systems behind it and extends their media life.

5 micron

15 GPM

10,000 gallon cartridge

6-month changes

KEY SPECIFICATIONS
